***Response to Arguments***

Applicant's arguments filed 12/13/20014 have been fully considered but they are not persuasive. Applicant states that Kashiwagi does not disclose a playback sequence and title list sorted in order or arrangement within the video object area. However, Kashiwagi shows that the title list is played back in accordance with the playback sequence as determined by playback control information, which is done in order of arrangement in the video object are (col.20 ll.17-60).

***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

Claims 1-20 are rejected under 35 U.S.C. 102(e) as being anticipated by Kashiwagi et al. (US6393574).

Regarding claims 1, 5-6, 10-11,14-15 and 17 Kashiwagi shows a method of recording an encoded bitstream which is part of a MPEG2 stream, on a disc in fig.2 at st.45(col.2 ll.17-18, col.10 ll.20-29) comprising:

- Recording a collection of video objects in a video object storage area of a disc in fig.68 (col.61 ll.51-57)
- Recording management information in a management information area of the disc is shown in fig. 22 (col. 19l.64-col.20 l.12)
- Playable titles are shown in Kashiwagi as a playback sequence of all completed cells or a subset of completed cells of a recording, which is shown in fig. 16 (col.20 ll.31-39)
- Fig.16 also discusses the generation of a title list and menu (as discussed in claim 10) (col.20 ll.40-60)

Regarding claims 2-4, 7-9,16 and 18-20, Kashiwagi discusses free space titles as titles which omit certain content, which would make them titles with free space which also deals with claims 4 and 9 where a deleted title is converted to a deleted title, in addition to the blocking of free space titles as in the case of a parental block (col.19 ll.5-25).

***Conclusion***

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
